Pest Management Training Pathways

Nationally Recognised Training

RTO Code: 46378

www.advanceyou.com.au

WHO WE SUPPORT AND HOW

Pest Management Business Owners and Operators putting on new trainees or wanting to licence existing employees through Recognition of Prior Learning.

Ride & Learn Program for new-to-industry students who are not employed and do not have a workplace agreement.

1:1 support & structured weekly check-ins to keep supervisors, students, employers and trainers aligned.

Flexible blended training that aligns with your services, systems and business values. We work directly with your team.

Continually Updated Training that is informed by industry leaders, academic research, regulatory frameworks and ongoing industry developments.

HOW WE DIFFER

Embedded in Industry
Backed by 40+ years of family-operated pest management experience across three generations.

Personalised Support
We provide support to owners, supervisors, schedulers and trainees as we recognise it takes a team to succeed.

Flexibility
We can adapt to meet the needs of your team and people and still provide quality outcomes.

Adaptability
We can adapt to reflect your services, values and business models.

Continual Improvement
Our main drive is to improve our processes by listening to and partnering with our customers.

TRAINING JOURNEY

1

Call us to discuss the best pathway for you, complete a free LLND assessment, enrol, and review payment options (including a payment plan).

2

Meet your trainer and assessor and complete your orientation online.

3

Commence training pathway with 1:1 support via our engaging digital learning program.

4

Apply learning in the workplace through your employer or via our Ride & Learn Program

5

Formative Review: Are you ready to commence formal assessment?
Summative Assessment: Prove your knowledge face-to-face with our friendly trainer and assessor.

6

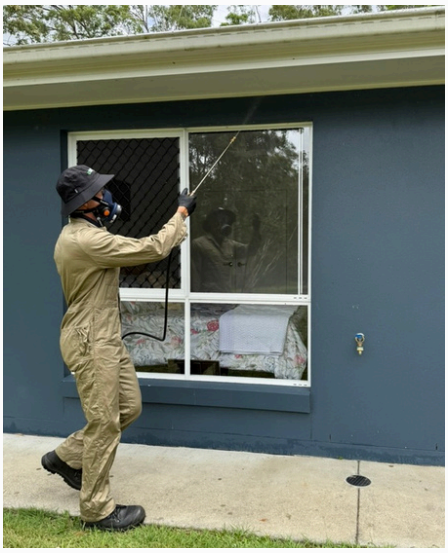

Graduate with a Statement of Attainment if competent.

NATIONALLY RECOGNISED TRAINING

Australian Qualifications Framework

ACCREDITED COURSES

RPL PATHWAY

Benefits of Recognition of Prior Learning (RPL)

Recognition of Prior Learning (RPL) enables experienced workers to convert their existing skills and knowledge into nationally recognised qualifications without unnecessary retraining. This saves time and costs for employers, supports workforce capability and compliance, and provides trainees with formal recognition that enhances their career opportunities.

General Pest Technician Course - $1997

Assessment Only Pathway

UoC required for General Pest Management Licensing. Recognises time and effort invested through internal workplace training. Suitable for trainees with 3 months of practical experience on the job.

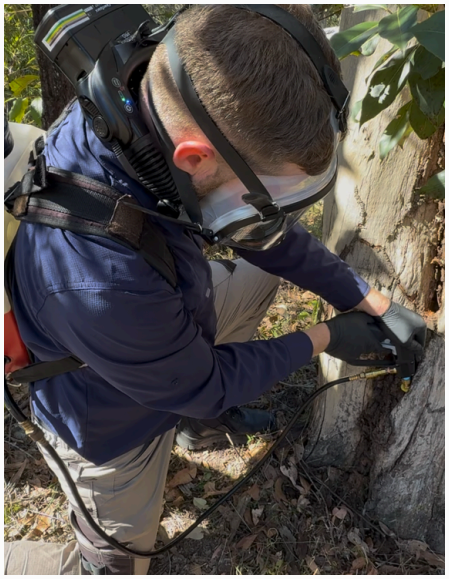

Units of Competency

CPPUPM3005: Manage pests without applying pesticides
Nominal hours - 70

CPPUPM3006: Manage pests by applying pesticides
Nominal hours - 100

CPPUPM3018: Maintain equipment and pesticide storage area in pest management vehicles.
Nominal hours - 25

Requirements: You must have over three months' experience in general pest management and be currently employed by a pest management company.

Timber Pest Technician Course - $2997

Assessment Only Pathway

UoC required for Timber Pest Management Licensing. Recognises the time and effort invested through internal workplace training. Suitable for general pest-licensed technicians with six months or more experience in timber pest management on the job.

Units of Competency

CPPUPM3008: Inspect for and report on timber pests
Nominal hours - 45

CPPUPM3010: Control timber pests
Nominal hours - 45

Requirements: You must have over six months' experience in timber pest management, hold a general pest licence and be currently employed by a pest management company.

Suitable for sales, management and administration officers working in the pest management industry.

Learn everything a technician needs to know without the need for an assessment. A certificate of completion is issued at the end. Limited trainer and assessor support—self-paced online learning.

GET STARTED

Pre-Enrolment Requirements - Accredited

Unique Student Identifier (USI)

Each trainee needs a **USI** to receive their **Statement of Attainment.** You can find or create a USI at **www.usi.gov.au** using **100 points of identification.**

Language, Literacy, Numeracy & Digital Assessment

Trainees must have their **LLND skills assessed** to ensure we have the **correct resources to support their learning needs.** This assessment is **free** and is conducted **prior to being accepted onto the course.**

Business Requirements - Traineeship only

Licensed Business

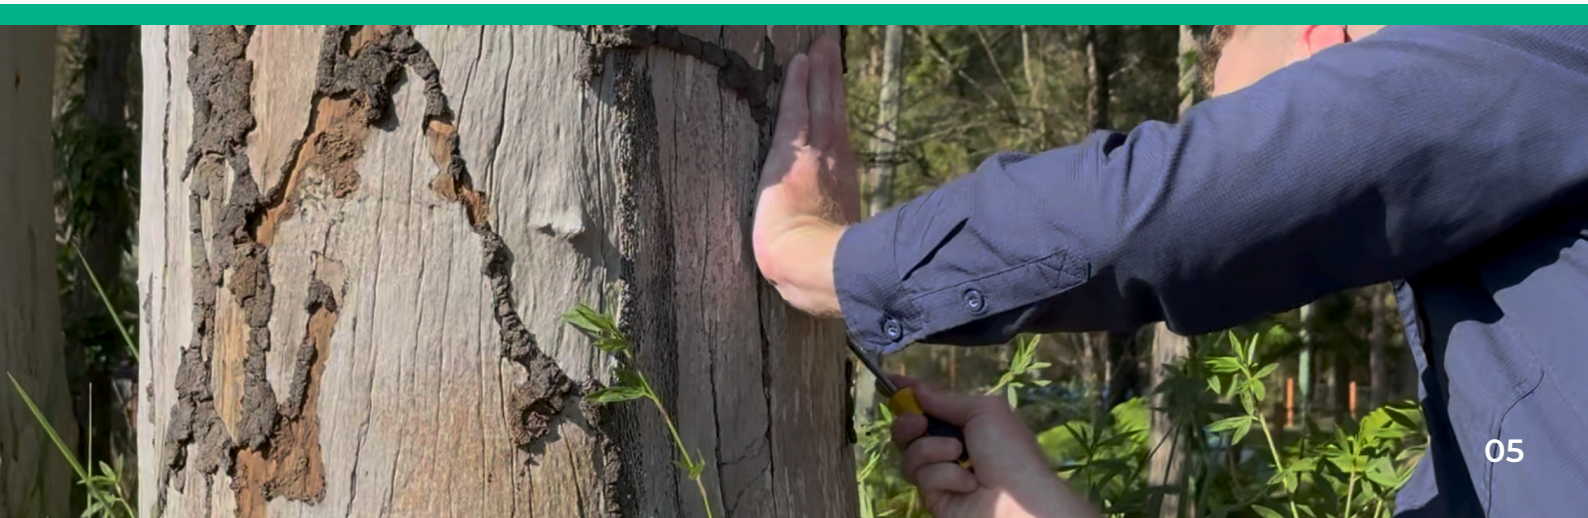

Your trainee **must be employed in your business.**

Qualified Supervisor

Trainees need a designated licensed supervisor from your team to validate practical competencies and sign off digital logbook entries.

Resources

Your trainee will need access to a **pest management vehicle, pesticide application equipment, a range of pesticide formulations, PPE, and inspection equipment**. Please call us for more information.

WHAT OTHERS SAY

I recently completed my General Pest Technician course with Advance You, and I couldn't be happier with the experience. The course was thorough, professional, and easy to follow.

Rhian and the team were so supportive throughout the process.

Their expertise in the pest control industry is evident, and they were always available to offer guidance whenever I needed it.

If you're looking to start or advance your career in pest control, I highly recommend Advance You!

- Mikey P.

We recently had one of our technicians complete a course with Advance You, and the entire experience was outstanding!

From the very beginning, the team was professional, supportive, and genuinely invested in our trainee's success. I was kept regularly updated on progress and outcomes, which really showed their dedication to both the student and the employer.

We highly recommend Advance You for any business wanting quality training and real support for their people.

- Aaron B.

THE TEAM

We started Advance You because we care deeply about our industry and wanted to contribute a practical, flexible, high-quality training solution that partners with other business owners. For our Ride and Learn students, we partner with our sister company Bundilla Pest Control to provide the required on-the-job experience.
