RIDE & LEARN PROGRAM

Is Ride & Learn for me?

Are you new to the industry? Do you learn better through on-the-job experience?

Advance You is proudly partnered with our sister company, Bundilla Pest Control, a highly regarded Sunshine Coast pest management business with over 1,600 five-star reviews.

Together we provide students with access to real-world pest management, hands-on training and practical assessments in a professional workplace environment.

Our goal is to equip you with the knowledge, practical skills and confidence to become a competent, capable and independent pest management technician.

What experience will I gain?

During the program, you'll complete 10 timber pest inspections and 10 timber pest management treatments across a variety of buildings with various construction methodology.

How do I start?

You can begin your online training immediately, with support from our trainers and assessors whenever you need it.
Once you've completed your online learning modules, you'll be ready to begin your hands-on training with Bundilla Pest Control.

Give us a call to discuss your suitability and availability for the Ride & Learn Program. As training is delivered one-on-one, there may be a waiting period for practical placements.

RIDE & LEARN PROGRAM

Who will I be learning from?

You'll work alongside our friendly, highly qualified pest management team, interact with real customers and develop the practical skills and confidence needed to become an independent timber pest management technician.

What Units of Competency do I gain?

The exact units Australian licensing departments require for timber pest management!

Upon successful completion of the Ride & Learn Timber Pest Management Program, you will receive a nationally recognised Statement of Attainment for the following units of competency:

- CPPUPM3008 – Inspect for and report on timber pests
- CPPUPM3010 – Control timber pests

These units provide the skills and knowledge required to inspect buildings for timber pests, prepare inspection reports, and carry out timber pest management and treatments.

How long does the whole process take?

The time it takes to complete the Ride & Learn Timber Pest Management Program depends on your dedication and progress through the online learning modules.

You can start your online training immediately and work through the theory at your own pace, with support from our trainers and assessors. Most people can complete the theory in around 50 hours.

The practical Ride & Learn component takes 5 business days.

RIDE & LEARN PROGRAM

What will I learn in the online course?

Our comprehensive online learning program covers everything you need to know about timber pest inspection and management, including:

- **Timber pest biology and ecology:** *Termites, borers and wood decay fungi, including their behaviour, habitats and distribution.*
- **Australian Standards:** *AS 4349.3 and the AS 3660 series and how they apply to timber pest inspections, treatments and building construction.*

- **Building construction:** *How different construction methods influence termite risk, inspections and management systems.*
- **Inspection equipment:** *How to use moisture meters, thermal imaging cameras and other inspection tools, and interpret their findings.*
- **Timber pest inspections and reporting:** *How to conduct thorough inspections, identify timber pest activity and prepare professional reports.*

- **Work health and safety:** *Identifying hazards, managing risks and safely handling pesticides and equipment.*
- **Legislation and regulations:** *Understanding your legal responsibilities and industry requirements including handling chemicals.*
- **Customer communication:** *How to explain inspection findings, treatment recommendations and ongoing prevention strategies.*

- **Termite management systems:** *Understanding the chemical, physical and baiting systems available in Australia, how they work, and how they are installed, monitored and maintained.*

By the end of your theory training, you'll have the knowledge and understanding needed to confidently apply what you've learned during your hands-on Ride & Learn training and demonstrate your skill under assessment.

RIDE & LEARN PROGRAM

What are the costs?

Our Ride & Learn Timber Pest Management Program costs $6,497 AUD (GST exempt).

This is an all-inclusive training package covering:

- **Full access to our online theory course and learning resources - available for 2 years.**
- **One-on-one practical training with experienced pest management professionals.**
- **Hands-on experience at real customer properties.**
- **All required equipment, chemicals, PPE, uniform and training resources.**
- **Practical assessments and training with a qualified trainer and assessor.**
- **Ongoing trainer support and mentorship - up to 5 years.**
- **A nationally recognised Statement of Attainment upon successful completion.**

Travel, accommodation, work boots and pants are not included. We also offer flexible payment options through Zip Pay, subject to approval.

- A treatment of subterranean termites using dust
- Use a sealant to seal a cold join

5 STAR - STUDENT REVIEWS

Rhian - The trainer is extremely knowledgeable and patient, providing attentive, responsive guidance throughout the course. There was never a moment of pressure — learning felt relaxed, enjoyable, and genuinely interesting, and I gained a great deal of knowledge along the way. I feel very fortunate to have been their student, and I sincerely wish them continued success and growth in the future .
Zihan Lee.

★★★★★

Really happy with my experience with Bundilla Pest Control. They genuinely care about providing good quality education and actually making sure you understand what you're learning. They also provide both theory as well as practical lessons. They're also pretty flexible with the timing, which has made it much easier to fit the course around work and other commitments. My trainer Rhian has been really supportive and helpful throughout the course. She's always happy to answer questions and explain things if I'm not sure about something. One of the best trainer Ive ever met. Overall, really good experience and I'd definitely recommend Bundilla to anyone looking to get into pest control - A.P.

★★★★★

Rhian delivered first-class training that was engaging, informative, and incredibly well presented.
She was knowledgeable, approachable, and explained everything clearly using practical, real-world examples that made the content easy to understand. The course was well organised, and I came away feeling confident and well prepared. I highly recommend Rhian to anyone looking for professional, high-quality training. Highly recommend Advance you - Terry Whelan
