Complete online training & assessment - 40 hours.

Ride along with our trainer and assessor, learning pest management from within our organisation.

**Duration: 2 days
Location: Sunshine Coast**

Receive on-the-job training, to build your skills prior to practical assessment.

**Book your Practical Assessments
Duration: 1 day
Location: Sunshine Coast**

Graduate with a Statement of Attainment.

Ongoing mentorship and support included.

STUDENT EXPERIENCE

Rhian - The trainer is extremely knowledgeable and patient, providing attentive, responsive guidance throughout the course. There was never a moment of pressure – learning felt relaxed, enjoyable, and genuinely interesting, and I gained a great deal of knowledge along the way. I feel very fortunate to have been their student, and I sincerely wish them continued success and growth in the future - Zihan Lee.

Really happy with my experience with Bundilla Pest Control. They genuinely care about providing good quality education and actually making sure you understand what you're learning. They also provide both theory as well as practical lessons. They're also pretty flexible with the timing, which has made it much easier to fit the course around work and other commitments. My trainer Rhian has been really supportive and helpful throughout the course. She's always happy to answer questions and explain things if I'm not sure about something. One of the best trainers I've ever met. Overall, really good experience and I'd definitely recommend Bundilla to anyone looking to get into pest control - Ashish Paneru

Rhian delivered first-class training that was engaging, informative, and incredibly well presented. She was knowledgeable, approachable, and explained everything clearly using practical, real-world examples that made the content easy to understand. The course was well organised, and I came away feeling confident and well prepared. I highly recommend Rhian to anyone looking for professional, high-quality training.
Highly recommend Advance you - Terry Whelan

Ride & Learn - What's involved?

SUPPORT

You will become a part of our team here at Bundilla Pest Control. You will have access to direct 1:1 support from a trainer and assessor and a supervisor. Bundilla Pest Control will provide everything you need to learn and practice, including uniforms and PPE. You will need to bring your own work shoes and pants. You will also need to organise your own accommodation and flights. Speak to our admin team if you require transportation between jobs.

ON-THE-JOB LEARNING

Mandatory Pests

During your Ride & Learn Program you will learn how to manage:

- Ants
- Cockroaches
- Spiders
- Rodents

Additional Pests

You will also become exposed to at least **FOUR** of the following pests:

- Flies
- Fleas
- Mites
- Fabric Pests (e.g. Case making cloth moth, Silverfish)
- Stored Good Pests (e.g. Indian Meal Moth, Tobacco Beetle)
- Bedbugs
- Occasional Pests (Millipedes, Centipedes, Thrips, Springtails, Amphipods)
- Bees and Wasps

Equipment

You will gain knowledge, skill & on-the-job experience in selecting and applying:

- Dust
- Liquid
- Granules
- Gel Baits
- Rodenticides

INTEGRATION & PRACTICE

At each site, you will practice:

- Risk assessment
- Inspection techniques
- Treatments
- Chemical mixing and application
- Post-treatment advice
- Environmental protections
- Customer interaction & professionalism

TRAINING & ASSESSMENT REQUIREMENTS

1

Knowledge Evidence

Prior to booking your Ride and Learn days, you must first read and complete your online learning. This is provided through our learning management system. Your knowledge is tested after each completed topic, which contributes to your overall grade.

2

RIDE & LEARN: Practical Experience (on-the-job)

You then require on the job practice to become competent in managing rodents, ants, cockroaches, spiders, and at least four specialty pests. You will become knowledgeable about how to use dusts, baits, liquid treatments, space sprays and granule formulations with a range of pesticide application equipment. We provide all the equipment & resources, except work clothing. The Ride & Learn Program takes 2 working days and covers at least 7 sites.

Our Ride & Learn Program allows sufficient support, exposure and experience to build your skills, confidence and capacity to then sit your final practical assessments. Your practical assessment will take 1 day and can be booked immediately after your Ride & Learn Program.

3

Practical Assessment: General Pest Management

You must independently demonstrate general pest management from start to finish, in person with a trainer and assessor.

On the day, the assessor will ensure you cover customer service, work orders, inspection techniques, integrated pest management planning and implementation, risk assessments, chemical handling, recording of pesticide application, using baits, dusts, and liquid treatments targeting spiders, ants, and cockroaches.

Advance You will provide the site, equipment & resources.

AdvanceYou

Bundilla
Pest Control

4

Practical Assessment: Rodent Management

You must independently demonstrate rodent management from start to finish, in person with a trainer and assessor.

On the day, the assessor will ensure you cover customer service, work orders, inspection, integrated pest management planning and implementation, risk assessments, rodenticide handling, and accurate recording of rodenticide application.

Advance You will provide the site, equipment & resources.

5

Misting, Fogging (Space Spray)

You must independently demonstrate a space spray treatment from start to finish, in person with a trainer and assessor.

On the day, the assessor will ensure you cover customer service, work orders, inspection, integrated pest management planning and implementation, risk assessments, chemical handling, and accurate recording of pesticide application.

This assessment is simulated as space sprays pose a risk to the environment and human health without extensive controls. We provide all resources.

6

Chemical Spill

You must demonstrate how to manage a simulated chemical spill in person with a trainer and assessor. Resources are provided.

7

Calibrating a Pump-Up Spray Unit

You must demonstrate how to calibrate a pump-up spray unit in person with a trainer and assessor. All resources will be provided.

8

Manage a Pest Control Vehicle

You must demonstrate you understand the legislated requirements in your state or territory for setting up and maintaining a pest management vehicle. A vehicle set-up will be provided.

Pest Control

Assessment Requirements in Detail

LOCATION

Advance You trainer and assessor's are based on the Sunshine Coast, Maroochydore.

You must be enrolled and have completed your online theoretical training before you commence your Ride & Learn Program and Practical Assessments. Allow 10 full working days for both. We do not provide accommodation, but can collect you & return you to your accommodation if it's within 15 minutes of Maroochydore.

REQUIREMENTS

Advance You will provide all resources, a validation supervisor, vehicle & equipment access, a trainer and assessor, real work sites and some PPE. You must provide your own work clothing, work boots, and half-face respirator. A disposable vapour respirator is sufficient as long as it has been fit tested to your face.

RECOMMENDATION

We recommend the Ride & Learn Program if you do not have access to a pest control company that can support your on-the-job practical. The training package requires students to practice their skills on real job sites.

Advance You provides a solution through our partnership with Bundilla Pest Control, giving students access to real pest management sites for their practical training and assessment.

The Sunshine Coast is a beautiful place to visit. Come and join us in paradise.

RESUBMISSION

As multiple skills and competencies will be assessed across your Ride & Learn Program, you may not be deemed fully competent in every area on the day. Any gaps identified will be discussed with you and opportunities for further development will be provided.

You will have 1 re-submission attempt.

UNITS OF COMPETENCY

Units of Competency we provide:

- CPPUPM3005 - Manage pests without applying pesticides
- CPPUPM3006 - Manage pests by applying pesticides
- CPPUPM3018 - Maintain equipment and pesticide storage areas in pest management vehicles

WHAT NEXT?

1. CHECK SUITABILITY

Our Ride & Learn Program is restricted to one student at a time. We pride ourselves on providing quality training and support. Please contact us for the next available dates.

Pricing is \$5,500 inclusive of online and on-the-job training, practical assessment, and ongoing mentorship.

2. ENROL

Enrolments will be assessed by our trainer and assessor. You will receive a formal email if suitable to proceed. We will assess your language, literacy, numeracy & digital skills prior to acceptance.

3. BEGIN

We will provide full support along the way.
